## **Management word**

Since the founding of Al-Aseel Grease and Lubricants Trading Company, we have set a clear goal: to be a trusted source for customers seeking world-class petroleum products. We don't just sell products; we offer integrated solutions that maintain business continuity efficiently and safely. We believe that success can only be achieved through adherence to international standards and delivering true value to our customers. This is why we have become reliable partners in various industrial and commercial sectors.

# Executive Summary

Al-Aseel Greases and Lubricants Trading Company is one of the leading companies trading petroleum products and base oils in the region. The company was founded with a clear vision to provide high-quality products that meet the needs of various industrial and commercial sectors, while adhering to global safety and quality standards.

At Al-Aseel, we do not limit ourselves to the role of a supplier; we consider ourselves a strategic partner to our customers, offering integrated solutions that include:

A wide range of products such as: Fuel Oil 180, Fuel Oil 380, Base Oil SN 150, Base Oil SN 300, Cutter Stock, Aromatic, Bay Gase, Naphtha, Black Diesel, Crude Oil, Phenol, in addition to specialized industrial oils and greases.

We provide technical consultation and continuous follow-up to ensure the selection of the most appropriate products and achieve optimal performance for equipment and engines.

We are committed to after-sales service and technical support, building long-term relationships with our partners in success.

Today, thanks to our years of experience, we have a strong distribution network spanning several sectors, including transportation, energy, contracting, agriculture, heavy industries, and maintenance workshops. We also pride ourselves on our products complying with international standards (API, SAE, and ISO) and being certified by the largest testing and quality laboratories.

Al-Aseel Company continually strives to strengthen its leadership position in the market by adopting global best practices and developing its services and products to meet the needs of its customers and contribute to the sustainability of their businesses.
